### WAGNER'S REVIEW

Morning Grain Letter,

Chicago, June 19 .- All sales in the wheat pit have dwindled to a standstill. Market gives signs of resting. It is no longer a running downward affair. First run of new wheat will pass abroad. Europe has bought 3,000,-000 old and new wheat in the United States this week.

It was hot in Kansas on Thursday with temperatures up to 96. To June 19 the northwest and Canada show cool. The northwest, perhaps, is perhaps receiving too much rain. Corn is in a two-sided position. Crop start is excellent and the east is again loading up with Argentine corn. About 1,000,000 Argentine corn has just arrived and three more cargoes are due If the east can receive 5,000,000 Argentine corn in the next four weeks it will make a big difference to the Chicago market Would not follow corn bulges.

Oats should be bought on all dips, but if central west has rains today, would wait out a decline or sell.

Winnipeg wires us this morning there has been heavy general rains in all districts except southern Alberta, Cool enough to preserve moisture. North central Missouri reports driest May in 40 years. Oats a half crop and corn about 80 per cent. Our corn re ports this morning are good as a whole but the cats reports from central west and Missouri run 50 to 80 from many sections. Extent of rally in wheat depends on extent of the short interest. The Liverpool rally of % is the best in two or three weeks

# This Handsome Brass Bed With Cotton Felt Mattress and all Steel Spring

Terms \$2.50 Cash 75c Weekly

Two inch Post Exactly like Cut

### A Brass Bed on Which the Lacquer Is Fully Guaranteed

To withstand all acid tests, and which is not affected by the application of alcohol, soap and water or by gas fumes, etc. This guarantee is backed by the manufacturers, who authorize us to replace any bed or refund the money, should it not withstand the above mentioned tests.

Price \$24.50

That is about the actual value of the bed alone. But we include at that price a mattress which cannot be purchased elsewhere under \$10.00, and a spring, the regular price of which is \$7.00, making a total value of \$41.50. Thus our price of \$24.50 saves you exactly \$17.00. You may consider this rather an extravagant assertion, but to the close student of newspaper advertising, and to those who have profited by the Franc's announcements, it will appear only as another one of the exceptionally good values that this firm offers.

\$2.50 at the time of purchase and 75c thereafter every week, are the arrangements on which you may purchase this outfit. We are not only willing but we are very anxious to make these arrangements with you, and, in fact, we would prefer to have you buy this outfit on these arrangements rather than to have you pay cash.

Mattress

The mattress is made by the Davenport Bedding Co., and weight full 40 lbs. It is covered in fancy art ticking, and has a full roll edge. Its soft and downy nature insures perfect rest, while the mamer in which the mattress is built, layer upon layer, prevents its losing

its shape and appearance.

We may be overly enthusiastic on the question of these matperfection in mattress building, and you may purchase one with the perfection in matress building, and you may purchase one with the full assurance that you will find it all we claim, if not, your money

The Spring

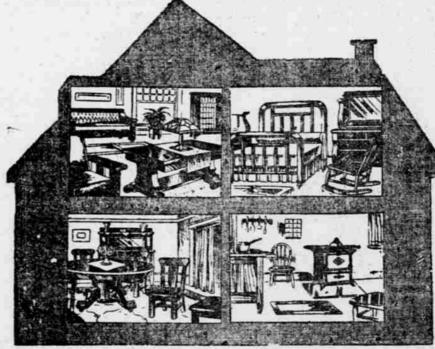

Which is the product of one of the best spring bed manufacturers in the United States, is in our opinion one of the best springs on the market. On each and every spring there is a guarantee tag which makes it returnable if it should sag or break within twenty years from the date of its purchase.
